# **Android Components**

**ACTIVITY** 

**SERVICE** 

BROADCAST RECEIVER

CONTENT PROVIDER

#### ACTIVITY

- ☐ Anything that appears on the screen is basically an activity
- □ Its an visual representation of an application- so whatever application the user interacts is basically possible because of the presence of an activity
- ■An application can contain multiple activities

Dr.K.Sathiyamurthy, DCSE,PTU 11/25/2023

#### INTENT

- Intention to perform action
- Contains a motive to trigger an event or to perform an action in the android OS or in any application
- Basic functionality of this intent is to start an activity or launch an application

Dr.K.Sathiyamurthy, DCSE,PTU 11/25/2023 3
